

- Lobelia Dortmanna** L. Water Lobelia. Windrum Lake.
- Antennaria anaphaloides** Rydb. Pussy-paws. Cypress Hills.
- A. corymbosa** E. Nels. Pussy-paws. Cypress Hills. New to the flora of Canada.
- A. imbricata** E. Nels. Pussy-paws. Cypress Hills.
- Artemisia vulgaris** L. Common Mugwort. Hoosier. (Introduced).
- Gnaphalium uliginosum** L. Low Cudweed. Loon Lake.
- Liatris aspera** (Michx.) Greene Large Button-snakeroot. Gainsborough, Antler.

APPENDIX

The following 8 species were reported from Saskatchewan in Fraser and Russell's List (1944), but inadvertently cited as other entities:

- Picea albertiana** S. Brown Alberta White Spruce. Cypress Hills. (See

- fig. 1). Reported as *P. glauca*.
- Juncus saximontanus** A. Nels. Rocky Mountain Rush. Cypress Hills. Reported as *J. Mertensianus*.
- Smilacina amplexicaulis** Nutt. Western Solomon's Seal. Cypress Hills. Reported as *S. racemosa*.
- Listera borealis** Morong Northern Twayblade. Cypress Hills. Reported as *L. convallarioides*.
- Arenaria stricta** (Sw.) Michx. Upright Sandwort. McKague. Reported as *A. verna*.
- Crataegus columbiana** Howell Columbia Hawthorn. Cypress Hills. Reported as *C. succulenta*.
- Aster modestus** Lindl. Modest Aster. Reported as *A. Franklinianus*. Macdowall, Meadow Lake, Ile a la Crosse, Loon Lake.
- Hieracium columbianum** Rydb. Columbia Hawksbeard. Cypress Hills. Reported as *H. cynoglossoides*.

Yellow Chokecherries

By Lad. Martinovsky, Gerald

The article on yellow chokecherries took my attention in the last BLUE JAY. I have been growing yellow chokecherries in my fruit garden for about eighteen years. We got the first plants from a nursery in Manitoba, but shortly after we found some growing wild about sixteen miles south of here.

A neighbor of mine found white Saskatoons growing in the Qu'Appelle Valley a number of years back. I intended to go and dig up a few plants but I have not done so yet.

Almost a Complete Set

H. H. Bridgewater, Bredenbury, Sask.

WHILE browsing through my stacks of BLUE JAYS today, I was delighted to find that I have the complete issue with the exception of Volume 1, No. 1. Regarding the first magazine, I would not ask anyone for it. If there are any around they will likely be highly valued. However, I would be glad to pay for a printed copy of this if anyone knows how it could be obtained.

The early editorials and pieces by the late Mrs. I. M. Priestly are wonderful. Her breezy outdoorish pen was both exciting and restful and

the lively zest with which she wrote, and must have lived, would have carried both herself and the BLUE JAY far had she lived. I think a copy of editorials and writings by this great naturalist would make a splendid special issue for the BLUE JAY some year.

I believe the day should not be too far away when your splendid magazine is found in newsstands throughout the country and subscribed to by schools in Western Canada.

A Worthy Incentive

New subscribers to the BLUE JAY from the city of Yorkton will automatically receive one year's free membership in the Yorkton Natural History Society. This ruling is a result of a motion passed at the regular meeting of that Society on January 10 last. This will provide an incentive for those interested in nature to become acquainted with both societies for only one dollar the first year, instead of asking for \$1.50 "right off the bat."

This move is a very worthy and unselfish one on the part of the Yorkton Society. The Editor of the BLUE JAY, on behalf of the Saskatchewan Natural History Society, offers their sincere thanks for this gesture of confidence and co-operation.
