brian01@sasktel.net

: A leucistic cackling goose (*Branta hutchinsii*) was observed in
: Wascana Lake between Pine and
: Spruce Islands (50°25'39.2" N
: 104°36'28.6" W) at 17:00 h on
: March 23, 2016. One photo (below)
: shows the leucistic goose alone,
: while the other shows the leucistic
: goose with a normally pigmented
: Canada goose for contrast. 🦢
